

# "WE BELIEVE THAT SMALL THINGS MAKE A BIG DIFFERENCE."\*

Place Sainte-Foy and Saint-Romuald Carrefour Cochon Dingue restaurants are part of the Restos Plaisirs Quebec's Group. This group owns several restaurants addressing different thematics.

## OBJECTIVES

The Group was looking for a solution to improve the productivity and profitability of its restaurants, while reducing various costs, including those associated with waste management. The whole thing was also to be innovative and a precursor in obtaining a green technology compliant with their social and environmental involvement.

## RESULTS

To meet those needs, a holding tank was installed outside the buildings, one below the terrace and the other under a bike path. SoluRobots have been integrated in the heart of kitchen layouts to simplify food waste management.

**Savings of approximately \$ 2,465 per restaurant per month.** Overall net operational savings over **10 years of approximately \$ 260,000**

**90% reduction** in usage of **plastic bags**

Full compliance with **Quebec's organic waste law (2020 - 2022)**

**Recovery of food waste** into **biogas** and reduction of **greenhouse gases**

**Diversion of 63,67 m3** of food waste from landfills and incineration. The **equivalent of 101,872 tons of CO2** or a total of **27 cars on the road** for a year
